# ARCADIAN BARREL SAUNAS

The Arcadian Series adds an array of exceptional features to the barrel sauna concept. The large sauna diameter creates a spacious environment that allows for wide benches and ample room for standing inside the sauna. The Nordic Spruce lumber is thermally modified, making the wood resistant to decay, insects and fading. The benches and backrests are constructed of clear Linden lumber, creating a beautiful complement to the darker exterior that is both knot-free and smooth to the touch. The sauna is available with or without a large half-moon window, and the full flat floor section is removable for ease of cleaning. The Arcadian saunas are fitted with the Harvia Spirit heater, a stylish wall-mounted heater that provides exceptional steam due to the large stone capacity. The heater also includes a digital control that can be mounted inside or outside the sauna depending on your preferred location. The Spirit heater incorporates WIFI, allowing you to control your sauna start and stop times as well as temperature remotely and from the convenience of your phone app. The Arcadian Series saunas include a deluxe bucket, ladle, and thermometer kit, providing everything you need for the ultimate authentic sauna experience.

# BARREL COLD PLUNGE

The Barrel Cold Plunge from Almost Heaven Saunas is an impressive combination of style, features and performance. The Barrel Cold Plunge is an excellent addition to your home wellness routine, providing the health benefits associated with cold therapy. And the Almost Heaven Barrel Cold Plunge is loaded with some exceptional features to further enhance your enjoyment. The Barrel Cold Plunge is available with a stainless steel or polycarbonate liner, ensuring years of trouble-free use. The chilling unit incorporates a filter and ozone purification system, allowing you to run the unit for days at a time without need of service. The chiller will bring the water temperature as low as 37°F, or as warm as 65°F when used as a warming tub. And importantly, the Barrel Cold Plunge includes the quality and service that are hallmarks of Almost Heaven Saunas.

## COLD PLUNG TANK FEATURES

- Tub exterior dimensions: 42" diameter x 39" H
- Tub interior dimensions: 39" diameter x 37" H
- Step overall dimensions: 20" W x 23" D x 21" H
- Capacity: 105 gallons
- Digital control pad on chilling unit
- WIFI capable for operation from phone app
- Hooks up in minutes
- Plugs into standard 110v household outlet

# WOOD FIRED HOT TUBS

Whether you want cold water for a cool-down plunge after a sauna, or hot water to relax your muscles and relieve stress, our wood-fired hot tubs give you both options and everything in-between! These Hot Tubs consumes zero electricity or gas and do not require pumps, wiring, or filtration systems to operate. Simply fill the tub with water and the fire box with wood and in a few hours after the fire is lit your hot tub is ready to use. The heated water rises and flows into the tub and pulls cooler water back into the heater to repeat the cycle. Hot Tub cover, step, and heater included.

## KIRAMI HOT TUB

4-person
